BANQUETS & RESIDENTIAL WEDDINGS

GCC is the ONE STOP SHOP for your wedding requirements. Over the last 27 years, has earned an immense goodwill as one of the most desirable venues for residential weddings. The secret to a successful event is meticulous planning. Our team will help you with detailed planning of your wedding function as per your budget.

We assist you with:

- Availability of venues and guest rooms and book them as per your need.
- Planning the menus for all the functions keeping your and your guest's preferences in mind.
- Guiding decorators to help decide on the themes and colors for all the wedding decorations.
- Suggesting beauticians, photographers, entertainers, performers, marriage bands, priests, special effect planners etc.

THE NEW GCC CLUB (Launching Soon in 2023)

We are launching an exclusive 72,000 sq. ft. club house building in a separate club campus reserved for existing members, new members and their guests only.

BRAND NEW FITNESS CENTRE

Our new gym which is approximately 8000 sq.ft. more than three times the size of our current one with endless fitness options for all categories. Inspired by the Japanese philosophy of 'Kaizen' which stands for constant improvement, the gym will include equipment and trainers for strength, cardio, CrossFit, functional, calisthenics, equipment and trainers for strength, cardio, CrossFit, functional, calisthenics, and yoga. Members have the option to grow endlessly in their fitness journeys and recover in our state-of-the-art steam and massage rooms.

TABLE TENNIS

The New GCC Club will offer a Temperature Controlled Table Tennis room spread over 1500 sq.ft exclusively for Members with three Tennis tables for easy access.

BADMINTON

The New GCC Club will offer 03 Exclusive Badminton courts for easy access for all our members. The Club will also serve as a Badminton Academy, nurturing young talent and backing them to perform in various competitions.

Photos are artist's impressions only.

EVENTS SPACES

Our 70,000 sq.ft. space will boast a tonne of areas in form of a lawn, members foyer, meeting rooms, that can be used for innumerable purposes. The exciting GCC events are soon to make a comeback with a brand new assortment of member- exclusive workshops, boot camps, and get-togethers aimed at connecting like-minded members with each other.

RESTAURANT AND BAR

Enjoy food and drinks at club rates. Our new 5000 sq.ft. resto-bar will offer a never-seen-before balance of exceptional taste, luxurious ambiance, and value for money. Coupled with our private dining rooms, ideal for business meetings, family gatherings, pitch decks, and parties, there is going to be space for just about everything.

BAKE HOUSE

Experience a world of heavenly flavors and artisanal delights exclusive to our members, as The New Club unveils its Member Exclusive Bakehouse and Coffee Shop in Mira Bhayander.

ROOFTOP SWIMMING POOL

GCC's trademark blue jewel will now also be forged in the new facility in front of an open-air terrace pool. This accompanies with a modern pool deck, open-air lounge seating and a toddler's pool makes for an unprecedented space, never seen before in Mira Bhayander.

Photos are artist's impressions only.

INSTITUTE OF HOTEL MANAGEMENT - GCC

MSBVE CERTIFIED

Institute of Hotel Management (IHM –GCC) is affiliated with Maharashtra State Board of Vocational Education (MSBVE). IHM – GCC offers 6 months vocational certificate courses in hospitality. These courses focus on practical trainings (on-job trainings) as against the regular classroom (theoretical) training. IHM – GCC has partnered with the prestigious GCC Hotel & Club where the students will be provided practical on-job trainings and will be guided and mentored by the industry experts. These practical on-job trainings help the students for improving his/ her competency to meet the greater demands and challenges of the industry.

GCC SKILL TRAINING PROGRAM (GSTP)

GCC SKILL DEVELOPMENT TRAINING PROGRAM (GSTP) was launched in 2013 with the aim to provide young aspirant wishing to make a career in hospitality, the opportunity to train under the guidance of professional hoteliers. During the training programme, the trainee is given on-job practical training in the hotel to learn the various aspects of hotel operations and is thus able to gain valuable experience besides honing the attitude, skills and knowledge required by the industry. Unlike other hospitality education programmes, GSTP focuses on practical training in hotels. No fee is payable by the students selected for the GSTP programme. Instead, the trainee is offered monthly allowance, accommodation, meals on duty, uniform and shoes. On successful completion of the training, the trainee is also eligible for Training Completion Certificate under the GSTP.

GCC INTERNATIONAL SCHOOL

GCC INTERNATIONAL SCHOOL (GIS) was founded in December 2015 and started its first academic year operations on 13th June 2016. GIS is a private co-educational day school offering education to students from Playgroup to Grade 10.

GCC International School is affiliated to The Council for the Indian School Certificate Examinations (CISCE).

GIS focuses in following a curriculum that makes use of modern teaching methodology achieved through digital classrooms and learning labs. In addition to a strong academic curriculum, the school encourages involvement and engagement beyond classroom.

The school provides Sports Specialisation Programmes that are developed and implemented by experienced professionals to benefit the student physically, mentally, emotionally and socially.

Qualified instructors impart training in sports activities such as swimming, skating, mixed martial arts, table tennis, badminton, squash etc. all in the curriculum. The primary goal is to inculcate the healthy spirit of competition, nurture the will to excel and develop spontaneity.

- GCC International School provides a state of the art infrastructure that includes: WiFi enabled campus, centrally air conditioned digital classrooms, modern learning labs, spacious reading lounge, auditorium, multi-purpose turf etc.

- GIS inspires each student to achieve academic results.

- GIS focuses on the holistic development of the student by integrating academics, sports and life skill activities. school and various external competitions for students.

- GIS promotes technology enabled learning to enhance the learning experience of the student.

experienced teachers and facilitators who build the foundation of academic learning.

- GIS cherishes each students uniqueness and individuality

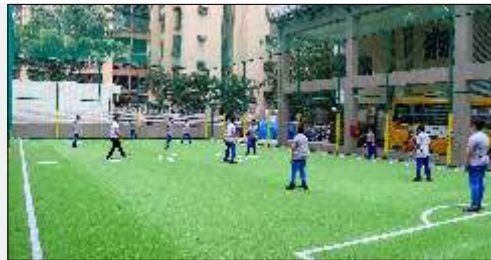

AUDITORIUM

A child –friendly auditorium is equipped with the most modern and audio-visual facilities and a massive seating capacity of approximately 600. The Hi-Tech auditorium will hosts numerous events including Annual day, Grandparents Day, SME Lectures, and Various School Competitions which shall provide ample opportunities for the students to showcase their talents.

DIGITAL CLASSROOM

All Classrooms are air-conditioned and complete with learning resources, well equipped with LED TV making it interactive for students with an integrated digital curriculum, enabling students to experiential learning and conceptual clarity.

MULTI-PURPOSE TURF

We've designed a multi-purpose turf for football, box cricket, handball and throwball, besides the swimming pool, sporting equipment, and sound system. With a physical education trainer present at all times, we offer a disciplined setting for our students to work together and develop the art and the personality needed on a field.

STEAM LEGO LAB

To help our students keep up with the 21st century relevant skills and our technology driven world, our school brings to you the STEAM Robotics. This state-of-the-art technology is integrated with the school curriculum, which strengthens the core concepts taught in Science, Math and English lectures. By incorporating hands-on learning in early stages we our pupils successfully complete their learning cycle in school.

PLAY AREA

GCC International School provides an infrastructure that is safe, hygienic and friendly. The 9000 sq.ft well furnished and air-conditioned play area makes free time a happy and satisfying experience for our little learners.

SAFETY AND SECURITY

Each students' safety is of paramount importance to us. Thus, to ensure a safe commute, we provide a fleet of in-house GPS enabled busses with CCTV cameras installed in each bus. This allows our facilities department to monitor real-time movement, simultaneously, it allows parents to track their bus via the MCB application.

ECO - FRIENDLY INITIATIVES BY GCC

SOLAR HEATING

Solar panels heat around 4,000 liters of water per day.

HOT WATER FROM AC PLANT

Heat generated by the central AC plant is tapped by de-super heaters and up to 12,000 Liters of water is heated per day

THERMAL ENERGY STORAGE

To Control the electricity bill i.e., to control the 'Maximum Demand Charge' and 'Extra Charge' for electrical consumption during the peak hours we have installed a 'AC Thermal Energy Storage Tank' which is 'charged' during the night (up to 5 degrees C) and during peak hours 300-kilo watt AC plant is switched off. The air-conditioning is effected by this stored energy while keeping the AC plant shut. Thereby saving power during peak hours and reducing significant power cost

CONSTRUCTION

The brickwork is done with 'Siporex' light weight blocks which provide thermal insulation.

DOUBLE GLAZING

The anodized aluminum windows are made with double glass and grey tint to reduce loss of air-conditioning due to outside heat. This saves on power cost and also reduces disturbance due to outside noise.

WATER RE-CYCLING

A sewage treatment plant of the capacity, One lack liters per day, re-cycles the waste water which is then used for ardening, flushing and floor washing.

RAIN WATER HARVESTING

We are getting about 40,000 liters of water per day from the rain water harvesting, which is used for washing after the water is filtered, softened and chlorinated.

TREE PLANTATION

A ground cover of around 50000 sq feet of lawns, 230 trees and various ornamental shrubs add to the greenery in the area.

MOTION SENSORS

Are being installed in various public areas to switch on/off lights as per usage. Signages are placed all around to instill 'Save Energy' and "Save Water" initiatives. 'Pressomatic faucets' are installed to save water.

GARBAGE SEGREGATION

The garbage generated by the property is segregated into recyclable and bio-degradable. A bio-gas plant of 300 kg per day capacity is installed and the waste is converted into cooking gas which is used as fuel. A plastic shredder is installed to shred plastic bottles, glasses etc to reduce the mass and then sold as scrap.

HEAT PUMPS

Energy saving heat pumps are installed for heating water and the cold air generated as a bye product is used for air conditioning thereby resulting in saving of electricity cost.

PLASTIC SHREDDER

All waste recyclable plastic is finely shredded all sold & scrap.

SOLAR SYSTEMS / POWER GENERATION

Solar panels are installed on terraces to generate electricity. The Power Generated is fed into the grid.

WASTE COMPOST MACHINE

GCC is zero wet waste producing unit. The wet waste is composted on site and the end product is used as fertilizer.
